

Product datasheet for AM05207BT-N

CD11a (ITGAL) Mouse Monoclonal Antibody [Clone ID: OFYS]

Product data:

Product Type: Primary Antibodies Clone Name: OFYS FC **Applications: Recommended Dilution:** Flow Cytometry. Characterization of LFA-1 immunodeficiency. Monitoring of subsets in peripheral blood. Graft-versus-host disease. Analysis of CTL-mediated cytotoxicity. Studies of transplantation rejection. Functional studies of cell adhesion molecules. **Reactivity:** Human Mouse Host: Isotype: lgG2a **Clonality:** Monoclonal Specificity: This antibody reacts with LFA-1 alpha. This antibody blocks cell-cell adhesion and adhesion mediated events such as cell mediated cytotoxicity. Formulation: PBS containing 0.2% protein carrier and 0.08% Sodium Azide as preservative Label: Biotin State: Liquid purified IgG fraction. **Concentration:** lot specific **Conjugation:** Biotin Store the antibody undiluted at 2-8°C. Storage: **Do Not Freeze!** Stability: Shelf life: One year from despatch. Gene Name: integrin subunit alpha L Database Link: Entrez Gene 3683 Human P20701

	CD11a (ITGAL) Mouse Monoclonal Antibody [Clone ID: OFYS] – AM05207BT-N
Background:	CD11a, Leukocyte Function Antigen-1 (LFA-1) complex is a heterodimeric glycoprotein consisting of two non-covalently linked chains, a 180 kDa alpha chain and a 95 kDa beta chain. It is a member of the integrin supergene family of adhesion molecules, and is on virtually all peripheral blood leukocytes. The molecule binds to ICAM-1, 2 and 3 and mediates cell-cell adhesion.
Synonyms:	Integrin alpha-L, LFA1, LFA-1
Note:	Protocol: PBMC: Add 10 ul of MAB/10e6 PBMC in 100 ul PBS. Mix gently and incubate for 15 minutes at 2-8°C. Wash twice with PBS and analyze or fix with 0.5% v/v of paraformaldehyde in PBS and analyze.
	WHOLE BLOOD: Add 10 ul of MAB/100 ul of whole blood. Mix gently and incubate for 15 minutes at room temperature (20°C).

Lyse the whole blood.

Wash once with PBS and analyze or fix with 0.5% v/v of paraformaldehyde in PBS and analyze.

See instrument manufacturers instructions for Lysed Whole Blood and Immunofluorescence analysis with a flow cytometer or microscope.
