CD11a (ITGAL) Mouse Monoclonal Antibody [Clone ID: OFYS]

Product data:

Product Type: Primary Antibodies

Clone Name: OFYS
Applications: FC

Recommended Dilution: Flow Cytometry.

Characterization of LFA-1 immunodeficiency. Monitoring of subsets in peripheral blood.

Graft-versus-host disease.

Analysis of CTL-mediated cytotoxicity. Studies of transplantation rejection.

Functional studies of cell adhesion molecules.

Reactivity: Human
Host: Mouse
Isotype: IgG2a

Clonality: Monoclonal

Specificity: This antibody reacts with LFA-1 alpha.

This antibody blocks cell-cell adhesion and adhesion mediated events such as cell mediated

cytotoxicity.

Formulation: PBS containing 0.08% Sodium Azide as preservative.

State: Purified

State: Liquid purified IgG fraction.

Concentration: lot specific
Conjugation: Unconjugated

Storage: Store the antibody (in aliquots) at -20°C.

Avoid repeated freezing and thawing.

Stability: Shelf life: One year from despatch.

Gene Name: integrin subunit alpha L

Database Link: Entrez Gene 3683 Human

P20701

CD11a (ITGAL) Mouse Monoclonal Antibody [Clone ID: OFYS] - AM05207PU-N

Background: CD11a, Leukocyte Function Antigen-1 (LFA-1) complex is a heterodimeric glycoprotein

consisting of two non-covalently linked chains, a 180 kDa alpha chain and a 95 kDa beta chain. It is a member of the integrin supergene family of adhesion molecules, and is on virtually all peripheral blood leukocytes. The molecule binds to ICAM-1, 2 and 3 and mediates

cell-cell adhesion.

Synonyms: Integrin alpha-L, LFA1, LFA-1

Note: Protocol: PBMC:

Add 10 ul of MAB/10e6 PBMC in 100 ul PBS. Mix gently and incubate for 15 minutes at 2-8°C.

Wash twice with PBS and analyze or fix with 0.5% v/v of paraformaldehyde in PBS and

analyze.

WHOLE BLOOD:

Add 10 ul of MAB/100 ul of whole blood.

Mix gently and incubate for 15 minutes at room temperature (20°C).

Lyse the whole blood.

Wash once with PBS and analyze or fix with 0.5% v/v of paraformal dehyde in PBS and

analyze.

See instrument manufacturers instructions for Lysed Whole Blood and Immunofluorescence

analysis with a flow cytometer or microscope.
