

Product datasheet for **AM06075SU-N**

Apolipoprotein A V (APOA5) Mouse Monoclonal Antibody [Clone ID: 4H8H8E2 (c)]

Product data:

Product Type:	Primary Antibodies
Clone Name:	4H8H8E2 (c)
Applications:	ELISA, WB
Recommended Dilution:	ELISA: 1/10000.
Reactivity:	Human
Host:	Mouse
Isotype:	IgG1
Clonality:	Monoclonal
Immunogen:	Purified recombinant fragment of Human APOA5 expressed in E. Coli.
Formulation:	State: Ascites State: Ascitic fluid Preservative: 0.03% Sodium Azide
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	apolipoprotein A5
Database Link:	Entrez Gene 116519 Human Q6Q788
Background:	Apolipoprotein A5 (ApoA5) is fast gaining attention as a key regulator of serum triglyceride concentrations. An ApoA5 mouse knock-out model produced an approximately four fold increase in serum triglycerides, whereas a knock-in model with human ApoA5 produced 50-70% lower concentrations of mouse serum triglycerides. In addition, peroxisome proliferator-activated receptor- agonists, which are used clinically to lower serum triglyceride concentrations, cause increased ApoA5 mRNA expression. Recently, it was demonstrated that ApoA5 is present in human serum detected by polyclonal antibodies against both the NH2 and COOH termini, although at much lower concentration than other apolipoproteins.
Synonyms:	Apolipoprotein A-V, Apo-AV, ApoA-V, RAP3
