

## Product datasheet for AM08039BT-N

## Tnfrsf8 Hamster Monoclonal Antibody [Clone ID: mCD30.1]

## **Product data:**

Product Type:	Primary Antibodies
Clone Name:	mCD30.1
Applications:	FC
Recommended Dilution:	Flow Cytometry: < / 3 µg/10e6 cells. (Ref.1)
Reactivity:	Mouse
Host:	Hamster
lsotype:	IgG
Clonality:	Monoclonal
Immunogen:	Recombinant mouse CD30 extracellular domain-mouse lgG1 fusion protein. (Ref.1)
Specificity:	This antibody is specific to Murine CD30, Mr 52 kDa (core peptide).
Formulation:	PBS containing 0.09% Sodium Azide as preservative. Label: Biotin State: Liquid purified Ig fraction.
Concentration:	lot specific
Conjugation:	Biotin
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	tumor necrosis factor receptor superfamily, member 8
Database Link:	<u>Entrez Gene 21941 Mouse</u> <u>Q60846</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

	Tnfrsf8 Hamster Monoclonal Antibody [Clone ID: mCD30.1] – AM08039BT-N
Background:	CD30 is a type I transmembrane protein and a member of the tumor necrosis factor receptor superfamily of proteins. (Ref.1,2) Murine CD30 is expressed predominantly in the thymus, and it is inducible in mouse splenocytes stimulated with pokeweed mitogen or concanavalin A. (Ref.1) In anti-CD3e-activated spleen cells, CD30 is expressed primarily on the surface of CD8+ T cells with peak expression on days 4 and 5. Stimulation of CD30+ CTL lines with plate- bound anti-CD30 directly signals IL-5 but not IFN-gamma production. (Ref.1) While these studies demonstrate that CD30 directs cytokine secretion and suggest that CD30 may play a pivotal role in the pattern of cytokine production by T cells, the precise roles of CD30 and its ligand (CD153) in T-cell development have not been clearly defined.
Synonyms:	TNFRSF8, D1S166E, CD30L receptor, KI-1 antigen
