

Product datasheet for AM08199HR-N

MMP3 Mouse Monoclonal Antibody [Clone ID: SB14d]

Product data:

Product Type: Primary Antibodies Clone Name: SB14d **Applications:** ELISA, IHC Recommended Dilution: ELISA: 1/1,000-1/4,000. Immunohistochemistry (Frozen/Paraffin): 1/1,000-1/2,000. **Reactivity:** Human Mouse Host: Isotype: lgG2a Monoclonal **Clonality:** Recombinant MMP-3. Immunogen: Specificity: This antibody is specific for Human MMP-3. Does not cross react to Human MMP-1, MMP-2 or MMP-9. Formulation: 50% Glycerol/50% PBS, pH 7.4 without preservatives. Label: HRP State: Liquid purified lg fraction. Label: Horseradish Peroxidase HRP **Conjugation:** Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Storage: Avoid repeated freezing and thawing. Stability: Shelf life: one year from despatch. matrix metallopeptidase 3 Gene Name: Database Link: Entrez Gene 4314 Human P08254

	MMP3 Mouse Monoclonal Antibody [Clone ID: SB14d] – AM08199HR-N
Background:	Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. MMP3 is an enzyme which degrades fibronectin, laminin, collagens III, IV, IX, and X, and cartilage proteoglycans. The enzyme is thought to be involved in wound repair, progression of atherosclerosis, and tumor initiation. MMP3 is reported to be implicated in rheumatoid arthritis and some forms of cancer.
Synonyms:	Stromelysin-1, SL-1, Matrix metalloproteinase-3, Transin-1, MMP3, STMY1
