

Product datasheet for **AM09250PU-N**

Prostate Specific Antigen (KLK3) (free) Mouse Monoclonal Antibody [Clone ID: 103]

Product data:

Product Type:	Primary Antibodies
Clone Name:	103
Applications:	ELISA
Recommended Dilution:	ELISA: This monoclonal PSA antibody can be used as a Tracer/Detection antibody in a Sandwich ELISA for Human free PSA detection in combination with a free PSA specific Capture antibody (Cat.-No AM09251PU-N).
Reactivity:	Human
Host:	Mouse
Isotype:	IgG2a
Clonality:	Monoclonal
Immunogen:	Purified Human PSA.
Specificity:	Reacts with both complexed and free Human PSA.
Formulation:	0.01M PBS, pH 7.0 without preservatives State: Aff - Purified State: Lyophilized purified Ig fraction
Reconstitution Method:	Restore with Double distilled water to adjust the final concentration to 1.0 mg/ml.
Purification:	Affinity Chromatography on Protein G
Conjugation:	Unconjugated
Storage:	Upon receipt, store (in aliquots) at -20°C. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	kallikrein related peptidase 3
Database Link:	Entrez Gene 354 Human P07288

Background:	<p>Kallikreins are a subgroup of serine proteases having diverse physiological functions. Growing evidence suggests that many kallikreins are implicated in carcinogenesis and some have potential as novel cancer and other disease biomarkers. This gene is one of the fifteen kallikrein subfamily members located in a cluster on chromosome 19. Its protein product is a protease present in seminal plasma. It is thought to function normally in the liquefaction of seminal coagulum, presumably by hydrolysis of the high molecular mass seminal vesicle protein. Serum level of this protein, called PSA in the clinical setting, is useful in the diagnosis and monitoring of prostatic carcinoma. Alternate splicing of this gene generates two transcript variants encoding different isoforms. Additional transcript variants have been described, but it is unclear if these transcripts are normally expressed or if they are specific to benign or malignant tumors.</p>
Synonyms:	Prostate-specific antigen, Semenogelase, Gamma-seminoprotein, P-30 antigen
Protein Families:	Druggable Genome, Protease, Secreted Protein
Protein Pathways:	Pathways in cancer, Prostate cancer
