## PDGF Receptor beta (PDGFRB) Mouse Monoclonal Antibody [Clone ID: 18A2]

**Product data:** 

**Product Type:** Primary Antibodies

Clone Name: 18A2
Applications: FC

Recommended Dilution: Flow Cytometry analysis of human blood cells using 20 μl reagent / 100 μl of whole blood

or 10e6 cells in a suspension.

The content of a vial (2 ml) is sufficient for 100 tests.

Reactivity: Human
Host: Mouse
Isotype: IgG1

Clonality: Monoclonal

Immunogen: CD140b-transfected NIH 3T3 cells

Specificity: This antibody recognizes CD140b / PDGF-RB, the 180-190 kDa beta chain of platelet-derived

growth factor receptor, which is widely expressed on a variety of mesenchymal-derived cells

and plays pro-proliferative roles.

Formulation: Phosphate buffered saline (PBS) solution containing 15mM sodium azide

Label: PE

State: Liquid purified Ig fraction

Label: Conjugated with R-Phycoerythrin under optimum conditions. The conjugate is purified

by size-exclusion chromatography and adjusted for direct use.

Conjugation: PE

Storage: Store the antibody at 2 - 8 °C. DO NOT FREEZE! This product is photosensitive and should be

protected from light.

**Stability:** Shelf life: one year from despatch.

**Gene Name:** platelet derived growth factor receptor beta

Database Link: Entrez Gene 5159 Human

P09619

Background: CD140b / PDGF-RB (platelet-derived growth factor receptor beta) is a cell surface receptor for

members of platelet-derived growth factor family, whose intracellular part contains a tyrosine kinase domain. CD140b forms homodimers, or heterodimerizes with CD140a / PDGF-RA. Whereas CD140a can have both pro-proliferative or anti-proliferative effects, the CD140b

induces in various cell types their proliferation and migration. CD140b has also

developmental roles in the cardiovascular system and is preferentially expressed on some

tumours such as medulloblastoma.

Synonyms: PDGF-R-beta, PDGF Receptor beta

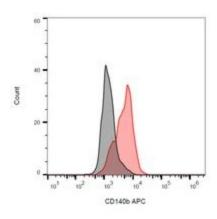

Protein Families: Druggable Genome, ES Cell Differentiation/IPS, Protein Kinase, Transmembrane

**Protein Pathways:** Calcium signaling pathway, Colorectal cancer, Cytokine-cytokine receptor interaction, Focal

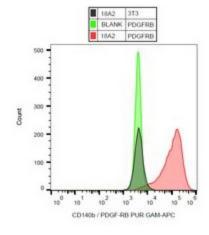

adhesion, Gap junction, Glioma, MAPK signaling pathway, Melanoma, Pathways in cancer,

Prostate cancer, Regulation of actin cytoskeleton
