## Myosin Heavy chain 1 (MYH1) (fast) Mouse Monoclonal Antibody [Clone ID: MY-38]

**Product data:** 

**Product Type:** Primary Antibodies

Clone Name: MY-38
Applications: IHC, WB

**Recommended Dilution:** Western Blot: 1 - 2 µg/ml.

Immunohistochemistry on paraffin sections: 1.5 - 2 μg/ml.

Reactivity: Human, Rabbit, Rat

Host: Mouse Isotype: IgG1

Clonality: Monoclonal

Immunogen: Rabbit muscle myosin

**Specificity:** This antibody reacts to Myosin-1.

**Formulation:** 1.2 % sodium acetate, with 2 mg BSA and 0.01 mg sodium azide as preservative.

State: Purified

State: Lyphilized purified Ig fraction

**Reconstitution Method:** Restore with 1.2% sodium acetate or neutral PBS

**Concentration:** 0,1 mg/ml (after reconstitution with PBS)

**Purification:** Affinity chromatography

**Conjugation:** Unconjugated

**Storage:** Prior to reconstitution store at -20°C.

Following reconstitution store undiluted at 2-8°C for one month

or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.

**Stability:** Shelf life: one year from despatch.

**Gene Name:** myosin, heavy chain 1, skeletal muscle, adult

## Myosin Heavy chain 1 (MYH1) (fast) Mouse Monoclonal Antibody [Clone ID: MY-38] – AM20642PU-N

**Background:** Myosin is composed of 2 heavy chains of about 200,000 daltons each and 4 light chains of

about 20,000 daltons each. The light chains are of 2 distinct types: the phosphorylatable, regulatory, or MLC2 type, and the nonphosphorylatable, alkali, or MLC1 and MLC3 types (MYL1 according to the HGM symbols). Skeletal Myosin (Fast), also known as MYL1, mapped to the region 2q32.1-qter. Southern blots of a panel of hybrids containing different portions of human chromosome 16 localized the gene to 16p13.13-p13.12. Skeletal Myosin (slow), also known as light chain 3(MYL3), mapped to 3p. Fodor et al. (1989) found that the MYL3 gene

has 7 exons, the last of which is completely untranslated 3-prime sequence.

Synonyms: Myosin heavy chain 1, Myosin heavy chain skeletal muscle

**Protein Pathways:** Tight junction, Viral myocarditis
