BCL3 Hamster Monoclonal Antibody [Clone ID: Ham150-3.5]

Product data:

Product Type: Primary Antibodies

Clone Name: Ham150-3.5

Applications: ELISA, FC, WB

Recommended Dilution: This Clone has been described to work in**ELISA**, **Western Blot** and **Flow Cytometry**.

Reactivity: Human, Mouse

Host: Hamster Isotype: IgG1

Clonality: Monoclonal

Immunogen: Recombinant Bcl-3-6-histidine tag from Armenian Hamster.

Fusion Partner: SP2/0 myeloma.

Specificity: Recognizes B-cell Leukemia/lymphoma 3 (Bcl-3).

Formulation: PBS containing 0.02% Sodium Azide as preservative

State: Purified

State: Liquid purified IgG fraction

Concentration: lot specific

Purification: Protein G Affinity Chromatography

Conjugation: Unconjugated

Storage: Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.

Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.

Gene Name: B-cell CLL/lymphoma 3

Database Link: Entrez Gene 602 Human

P20749

BCL3 Hamster Monoclonal Antibody [Clone ID: Ham150-3.5] - AM31856PU-N

Background: B cell Lymphoma 3 is a member of the IkB subfamily of inhibitors. This subfamily is part of the

NF-kB transcription factor protein family and it is suggested that a balance in the

concentration of various NF-kB family members regulates apoptosis and survival of activated

T cells.

Bcl-3 has been shown to have versatile functions such as cytoplasmic activation of p50 homodimers, translocation to the nucleus, and modulation of the transcriptional machinery in the nucleus. Bcl-3 activity often relies on several nuclear interacting proteins such as Tip60, Jab1, Bard1, and Pirin. The Mouse Bcl-3 coding region exhibits 80% homology with Human Bcl-3 which is associated with human B-cell chronic lymphocytic leukemias (CLLs). Bcl-3 is detected in various tissues such as spleen and other lymphoid organs.

Synonyms: BCL3, BCL4, D19S37

Protein Families: Druggable Genome, Transcription Factors

Product images:

Western Blot Analysis of bcl-3 antibody: Lysate from Mouse Spleen and Thymus (Thymus shown above) cells probed with at 1.0 ug/ml. AP conjugated Goat Anti-Hamster IgG as secondary antibody.
