

## Product datasheet for **AM50215PU-S**

### CD2 Mouse Monoclonal Antibody [Clone ID: BH1]

#### Product data:

Product Type:	Primary Antibodies
Clone Name:	BH1
Applications:	FC, IF, IHC, IP
Recommended Dilution:	<b>ELISA:</b> Use BSA free Antibody for coating. <b>Functional Studies:</b> Use Azide free Antibody. <b>Flow Cytometry:</b> 0.5-1 µg/million cells. <b>Immunofluorescence:</b> 0.5-1 µg/ml. <b>Western Blotting:</b> 0.5-1 µg/ml. <b>Immunoprecipitation:</b> 0.5-1 µg/500 µg protein lysate. <b>Immunohistochemistry on Frozen Sections:</b> 0.5-1 µg/ml for 30 minutes at RT. <b>Positive Control:</b> 293T or Jurkat cells. Lymph node and tonsil.
Reactivity:	Human
Host:	Mouse
Isotype:	IgG2b
Clonality:	Monoclonal
Immunogen:	Human CD2 protein.
Specificity:	Recognizes CD2. <b>Cellular Localization:</b> Cell surface.
Formulation:	10mM PBS State: Purified State: Liquid purified IgG fraction from Bioreactor Concentrate Stabilizer: 0.05% BSA Preservative: 0.05% Sodium Azide
Concentration:	lot specific
Purification:	Protein A/G Chromatography
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C.
Stability:	Shelf life: one year from despatch.

**Predicted Protein Size:** 50 kDa

**Gene Name:** CD2 molecule

**Database Link:** [Entrez Gene 914 Human P06729](#)

**Background:** CD2 interacts through its amino-terminal domain with the extracellular domain of CD58 (also designated CD2 ligand) to mediate cell adhesion. CD2/CD58 binding can enhance antigen-specific T cell activation. CD2 is a transmembrane glycoprotein that is expressed on peripheral blood T lymphocytes, NK cells and thymocytes. CD58 is a heavily glycosylated protein with a broad tissue distribution in hematopoietic and other cells, including endothelium. Interaction between CD2 and its counter receptor LFA3 (CD58) on opposing cells optimizes immune system recognition, thereby facilitating communication between helper T lymphocytes and antigen-presenting cells, as well as between cytolytic effectors and target cells.

**Synonyms:** SRBC, Erythrocyte receptor, LFA-2, LFA-3 receptor, Rosette receptor
