

Product datasheet for **AP02285PU-N**

Comp Chicken Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	Western blot.
Reactivity:	Rat
Host:	Chicken
Clonality:	Polyclonal
Immunogen:	Recombinant rat COMP (Fragment T3+TC)
Specificity:	This antibody detects COMP.
Formulation:	PBS pH 7,4 State: Purified State: Lyophilized purified Ig fraction
Reconstitution Method:	Restore in aqua bidest.
Conjugation:	Unconjugated
Storage:	Store lyophilized at 2 - 8 °C and reconstituted at -20 °C. Avoid repeated freezing and thawing.
Stability:	Shelf life: One year from despatch.
Gene Name:	cartilage oligomeric matrix protein
Database Link:	Entrez Gene 25304 Rat P35444
Background:	COMP is a noncollagenous extracellular matrix (ECM) protein. It consists of five identical glycoprotein subunits, each with EGF like and calcium binding (thrombospondin like) domains. Oligomerization results from formation of a five stranded coiled coil and disulfides. Binding to other ECM proteins such as collagen appears to depend on divalent cations. Mutations can cause the osteochondrodysplasias pseudocondroplasia (PSACH) and multiple epiphyseal dysplasia (MED).
Synonyms:	Cartilage oligomeric matrix protein
Note:	LocusID 25304
