Product datasheet for AP05111PU-N

Vsx2 (C-term) Sheep Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	IHC, WB
Recommended Dilution:	Western Blot: 0.5-1.0 mg/ml. Detects a 46 kDa band in Mouse and Rat retinal tissue lysates. Immunohistochemistry on Frozen Sections. Suitable for use againt recombinant proteins conjugated to OVA, GST, His tags and others.
Reactivity:	Mouse, Rat
Host:	Sheep
lsotype:	IgG
Clonality:	Polyclonal
Immunogen:	A recombinant protein corresponding to amino acids 264 to 361 derived from the C terminal of the Human Chx10 protein conjugated to KLH.
Specificity:	This antibody recognizes chx 10 (C-Term). Other species not tested.
Formulation:	PBS containing 0.08% Sodium Azide as preservative. State: Purified State: Liquid purified IgG fraction.
Purification:	Ammonium Sulfate Precipitation
Conjugation:	Unconjugated
Storage:	Upon receipt, store undiluted (in aliquots) at -20°C. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	46 kDa
Gene Name:	visual system homeobox 2
Database Link:	<u>Entrez Gene 171360 RatEntrez Gene 12677 Mouse</u> <u>Q61412</u>

Image: Criterin Sheep Polyclonal Antibody - AP05111PU-NBackground:Chx10 is a 46kDa homeodomain protein of the paired-like class that is essential for
development of the mammalian eye. Mutations in Chx10 cause microphthalmia, a cause of
congenital blindness in humans, and the ocular retardation (or) phenotype in mice. In the
developing mouse retina Chx10 is expressed in retinal progenitors, while in the mature
retina, Chx10 expression becomes restricted to bipolar neurons. Concurrent with these
expression patterns, the Chx10-/- (or) retina is thin due to a defect in proliferation of retinal
progenitors, and lacks bipolar neurons. Chx10 is also expressed in the developing brainstem,
thalamus, and spinal cord.

Synonyms: HOX10

Product images:

Western blot analysis using anti-Chk10 (CT) antibody at 1 ug/ml on rat liver (A), retina tissue lysate (B), mouse liver (C) and retina (D) tissue lysate.
