

Product datasheet for AP05307SU-N

Product datasneet for AP0550750-1

ELOVL4 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: WB

Recommended Dilution: Western blot (1-5 µg/ml starting dilution).

Reactivity: Human

Host: Rabbit

Isotype: IgG

Clonality: Polyclonal

Immunogen: Synthetic peptdide derived from the human ELOV4 protein

Specificity: This antibody detects ELOV4, expressed in the retina and at much lower level in the brain.

Formulation: Phosphate buffered saline with 0.08% sodium azide

State: Purified

State: Liquid purified Ig fraction

Concentration: lot specific

Conjugation: Unconjugated

Storage: Store the product (in aliquots) at -20 °C. Can be shipped at 2 - 8 °C.

Avoid repeated freezing and thawing.

Stability: Shelf life: One year from despatch.

Gene Name: ELOVL fatty acid elongase 4

Database Link: Entrez Gene 6785 Human

ELOVL4 Rabbit Polyclonal Antibody - AP05307SU-N

Background: Mutations in

Mutations in elongation of very long-chain fatty acid-4 (ELOVL4) are associated with autosomal dominant Stargardt-like macular degeneration (STGD3), with a five base-pair (5 bp) deletion mutation resulting in the loss of 51 carboxy-terminal amino acids and truncation of the protein. Elovl4 is expressed in the retina and only a limited number of mammalian other tissues, including skin, with unknown function. In a mouse model with the 5-bp deletion in the Elovl4 gene, mice in the heterozygous state (Elovl4(+/del)) demonstrate progressive photoreceptor degeneration. Homozygous mice (Elovl4(del/del)) display scaly, wrinkled skin, have severely compromised epidermal permeability barrier function, and die within a few hours after birth. Lipid analyses of epidermis from Elovl4(del/del) mice show a decrease in very long-chain fatty acids (VLFAs) in both the ceramide/glucosylceramide and the free fatty-acid fractions. ELOVL4 is required for generating VLFA critical for epidermal barrier function.

Synonyms: ADMD; FLJ17667; FLJ92876; STGD2; STGD3

Protein Families: Transmembrane
