

Product datasheet for AP06035PU-N

CARD6 Rabbit Polyclonal Antibody

Product data:

OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

Product Type:	Primary Antibodies
Applications:	IF, IHC, WB
Recommended Dilution:	Immunofluorescence: 1/50-1/200. Immunohistochemistry on Paraffin sections: 1/50-1/200. Western blot: 1/500-1/1000.
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to the N-terminual of Human CARD6.
Specificity:	This antibody detects endogenous levels of CARD6/CIN protein (region surrounding Ala2).
Formulation:	Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified Ig fraction Preservative: 0.05% sodium azide
Concentration:	1.0 mg/ml
Purification:	Affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS- PAGE)
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 116 kDa
Gene Name:	caspase recruitment domain family member 6
Database Link:	<u>Entrez Gene 84674 Human</u> <u>Q9BX69</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

GRIGENE CARD6 Rabbit Polyclonal Antibody – AP06035PU-N

Background:Membrane-associated guanylate kinase (MAGUK) family members localize to the plasma
membrane and function as molecular scaffolds for the assembly of multi-protein complexes.
The MAGUK family includes several mammalian proteins related to the Drosophila tumor
suppressor discs-large (dlg) gene product, such as postsynaptic proteins, GKAPs, the tight
junction associated proteins (ZO-1–3) and the caspase-associated recruitment domain (CARD)
proteins, CARD 6, CARD 8-12 and CARD 14. CARD 6 is a 311 amino acid protein that
associates with microtubules and acts as a selective mediator of NFkB activation. CARD 6 is
structurally and functionally related to the superfamily of interferon (IFN)-inducible GTPases,
a group that comprises host defense proteins which mediate cell-autonomous immunity.
RICK, the receptorinteracting protein (RIP)-like interacting caspase-like apoptosis regulatory
protein kinase, interacts with CARD 6 and targets it to aggresomes, regions of the cell where
protein aggregates collect.

Synonyms:

CINCIN1
