Product Type:	Primary Antibodies
Applications:	ELISA, WB
Recommended Dilution:	Western blot: 1/500-1/1000.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to amino acids 1181-1230 of Human ErbB2/HER2.
Specificity:	This antibody detects endogenous levels of HER2 protein. (region surrounding Pro1215)
Formulation:	Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified lg fraction Preservative: 0.05% sodium azide
Concentration:	1.0 mg/ml
Purification:	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE)
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 138,185 kDa
Gene Name:	erb-b2 receptor tyrosine kinase 2
Database Link:	<u>Entrez Gene 2064 Human</u> <u>P04626</u>

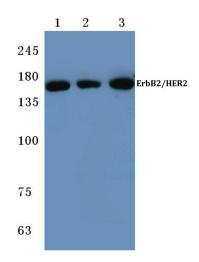

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** Her2 (ERBB2) Rabbit Polyclonal Antibody – AP06165PU-M

Background:The EGF receptor family comprises several related receptor tyrosine kinases that are<br/>frequently overexpressed in a variety of carcinomas. Members of this receptor family include<br/>EGFR (HER1), Neu (ErbB-2, HER2), ErbB-3 (HER3), and ErbB-4 (HER4), which form either<br/>homodimers or heterodimers upon ligand binding. Neu, a glycoprotein, undergoes<br/>transactivation upon hetero-dimerization with other EGF receptor family members. Neu<br/>heterodimerization with ErbB-3 recruits heregulin, which induces phosphoinositide (PI) 3-<br/>kinase activation. Activation of Neu potentiates tumor cell motility and protease secretion and<br/>invasion, and also modulates cell cycle checkpoint function, DNA repair and apoptotic<br/>responses.

Synonyms: HER-2, NEU, p185erbB2, NGL, c-erbB-2, MNL19
