

# Product datasheet for AP06175PU-N

# HSP90AA1 / HSP90 alpha Rabbit Polyclonal Antibody

## **Product data:**

#### **Product Type: Primary Antibodies Applications:** ELISA, IHC, WB Recommended Dilution: Western blot: 1/500-1/1000. Immunofluorescence: 1/50-1/200. Immunohiostochemistry on Paraffin Sections: 1/50-1/200. **Reactivity:** Human, Mouse, Rat Host: Rabbit **Clonality:** Polyclonal Immunogen: Synthetic peptide, corresponding to amino acids 671-720 of Human HSP90a. Specificity: This antibody detects endogenous levels of HSP90A/HSP86 protein. Formulation: Phosphate buffered saline (PBS), pH~7.2 State: Aff - Purified State: Liquid purified Ig fraction (> 95% pure by SDS-PAGE) Preservative: 15 mM Sodium Azide **Concentration:** 1.0 mg/ml **Purification:** Affinity Chromatography using epitope-specific immunogen **Conjugation:** Unconjugated Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Storage: Avoid repeated freezing and thawing. Stability: Shelf life: one year from despatch. **Predicted Protein Size:** ~85, 90 kDa Gene Name: heat shock protein 90kDa alpha family class A member 1 Database Link: Entrez Gene 3320 Human P07900

### Section 2017 Contemporary Conte

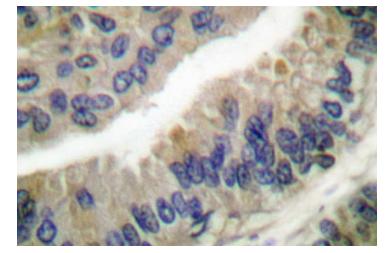

Background:In mammalian cells there are at least two Hsp90 isoforms, Hsp90a and Hsp90b which are<br/>encoded by separate genes. These ubiquitous and highly conserved proteins account for 1-<br/>2% of all cellular proteins in most cells. Hsp90 is part of the cells powerful network of<br/>chaperones to fight the deleterious consequences of protein unfolding caused by<br/>nonphysiological conditions. However, in the absence of stress, Hsp90 is a necessary<br/>component of fundamental cellular processes such as hormone signaling and cell cycle<br/>control. In this context several key regulatory proteins such as steriod receptors, cell cycle<br/>kinases involved in signal transduction and p53 have been identified as substrates of Hsp90.<br/>It has been suggested that Hsp90 acts as a capacitor for morphological evolution by buffering<br/>widespread variation, which may affect morphogenic pathways.

Synonyms: HSP90A, HSPC1, HSPCA, Heat shock 86 kDa, HSP86, NY-REN-38, Heat shock protein HSP 90alpha
