

Product datasheet for AP06324PU-M

Serum Response Factor (SRF) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies IHC, WB **Applications:** Recommended Dilution: Western blot: 1/500-1/1000. Immunohistochemistry on paraffin sections: 1/50-1/200. **Reactivity:** Human, Mouse, Rat Host: Rabbit **Clonality:** Polyclonal Synthetic peptide, corresponding to amino acids 61-110 of Human SRF. Immunogen: This antibody detects endogenous levels of SRF protein. Specificity: (region surrounding Gly93) Formulation: Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified lg fraction Preservative: 15 mM sodium azide **Concentration:** 1.0 mg/ml **Purification:** Affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE) **Conjugation:** Unconjugated Storage: Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Stability: Shelf life: one year from despatch. **Predicted Protein Size:** ~ 58 kDa Gene Name: serum response factor Database Link: Entrez Gene 20807 MouseEntrez Gene 501099 RatEntrez Gene 6722 Human P11831

	Serum Response Factor (SRF) Rabbit Polyclonal Antibody – AP06324PU-M
Background:	Serum response factor (SRF) is a transcription factor that binds the serum response element (SRE), a sequence that mediates the transient response of many cellular genes to growth stimulation. SRF-binding sites are also constitutive promotor elements in many muscle-specific promotors. At the c-Fos SRE, formation of a ternary complex containing SRF and its accessory protein p62TCF appears to be important for signal transduction. Two related Ets domain proteins, Elk-1 and SRF accessory protein-1 (SAP-1) have DNA binding properties identical to that of p62TCF. Elk-1 and SAP-1 contain two homologous regions of which the two amino-terminal regions, the Ets domain (box A) and the B box, mediate ternary complex formation with SRF.
Synonyms:	ELK3; ERP; MCM1; SAP2
Protein Families	: Druggable Genome, Transcription Factors

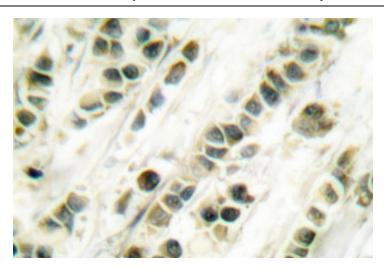

Protein Pathways: MAPK signaling pathway
