

Product datasheet for AP06419PU-N

TrkB (NTRK2) Rabbit Polyclonal Antibody

Product data:

OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

Product Type:	Primary Antibodies
Applications:	IHC, WB
Recommended Dilution:	Western blot: 1/500-1/1000. Immunohistochemistry on paraffin sections: 1/50-1/200.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to amino acids 102-158 of Human Sarcoglycan- eta .
Specificity:	This antibody detects endogenous levels of Trk B protein. (region surrounding Val509)
Formulation:	Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified lg fraction Preservative: 0.05% sodium azide
Concentration:	1.0 mg/ml
Purification:	Affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS- PAGE)
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 92, 145 kDa
Gene Name:	neurotrophic receptor tyrosine kinase 2
Database Link:	<u>Entrez Gene 4915 Human</u> <u>Q16620</u>

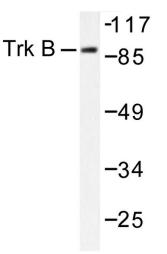

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

CRIGENE TrkB (NTRK2) Rabbit Polyclonal Antibody – AP06419PU-N

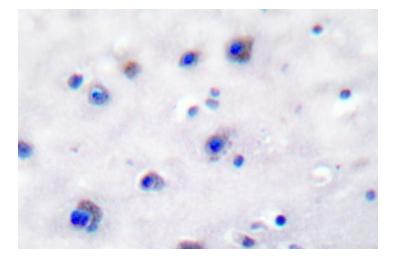

Background:The Trk proto-oncogene encodes a tyrosine protein kinase, Trk A, also designated Trk gp140,
that serves as a receptor for certain neurotrophic factors including nerve growth factor (NGF)
and neurotrophin-3 (NT-3). Trk B is a tyrosine kinase gene highly related to Trk A. Trk B
expression is confined to tissues within the central and peripheral nervous systems. The
brain-derived neurotrophic factor (BDNF) and NT-3, but not NGF, can induce rapid
phosphorylation on tyrosine of Trk B gp145, one of the receptors encoded by Trk B, although
BDNF elicits a response at least two orders of magnitude greater than NT-3. Thus it appears
that Trk B gp145 may represent a neurotrophic receptor for BDNF and NT-3. The third
member of the Trk family of tyrosine kinases, Trk C, encodes a protein designated Trk C
gp145 that is preferentially expressed in brain tissue, is equally related to Trk A and Trk B,
and is a functional receptor for NT-3.

Synonyms: TRKB, NTRK2
