

Product datasheet for AP06494PU-N

APC Rabbit Polyclonal Antibody

Product data:

OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

Product Type:	Primary Antibodies
Applications:	IHC
Recommended Dilution:	Immunohistochemistry on paraffin sections: 1/50-1/200.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to amino acids 2020-2070 of Human APC.
Specificity:	This antibody detects endogenous levels of APC protein. (region surrounding Lys2050)
Formulation:	Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified Ig fraction Preservative: 0.02% sodium azide with 50 % Glycerol
Concentration:	1.0 mg/ml
Purification:	Affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS- PAGE)
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 310 kDa
Gene Name:	adenomatous polyposis coli
Database Link:	<u>Entrez Gene 324 Human</u> <u>P25054</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

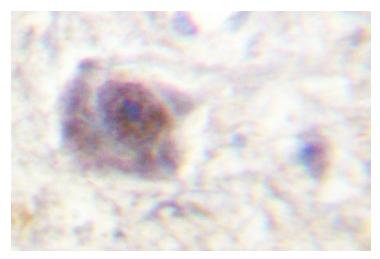

GRIGENE APC Rabbit Polyclonal Antibody – AP06494PU-N

Background:Adenomatous polyposis coli (APC) is a protein that plays a critical role in several cellular
processes. APC is a tumor suppressor, regulates cell division, helps ensure that the number
of chromosomes in a cell is correct following cell division and associates with other proteins
involved in cell attachment and signaling. APC regulates ß-catenin levels through Wnt-
signaling and is involved in actin cytoskeletal integrity, cell-cell adhesion and cell migration.
Defects in this gene cause familial adenomatous polyposis (FAP), an autosomal dominant pre-
malignant disease that usually progresses to malignancy. Disease-associated mutations tend
to be clustered in a small region designated the mutation cluster region (MCR) and result in a
truncated protein product.

Synonyms:

Adenomatous polyposis coli protein
