Product Type:	Primary Antibodies
Applications:	IHC, WB
Recommended Dilution:	Western blot: 1/500-1/1000. Immunohistochemistry on paraffin sections: 1/50-1/200.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to amino acids 470-520 of Human PKC $\delta$ .
Specificity:	This antibody detects endogenous levels of PKC delta protein. (region surrouding Gly499)
Formulation:	Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified Ig fraction Preservative: 0.05% sodium azide
Concentration:	1.0 mg/ml
Purification:	Affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS- PAGE)
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 80 kDa
Gene Name:	protein kinase C delta
Database Link:	<u>Entrez Gene 5580 Human</u> <u>Q05655</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

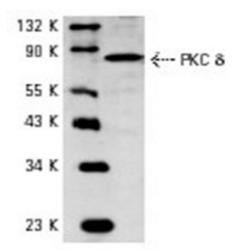

# **PKC delta (PRKCD) Rabbit Polyclonal Antibody - AP06564PU-MBackground:**Protein Kinase C delta (PKC delta) is a 78 kDa member of the novel group (nPKCs: sensitive to<br/>diacylglycerol, phosphatidylserine, and phorbol esters) of the PKC family of serine/threonine<br/>kinases that are involved in a wide range of physiological processes including mitogenesis,<br/>cell survival and transcriptional regulation. PKC delta is an ubiquitously expressed PKC<br/>isozyme that has been implicated in the regulation of multiple cellular processes including cell<br/>cycle progression and apoptosis. Autophosphorylation of serine 664 (serine 662 in mouse<br/>and rat) contributes to PKC delta activity. Serum dependent phosphorylation of serine 664 is<br/>mediated by mTOR pathway, is protected from dephosphorylation by phosphorylated

threonine 505 in the activation loop, and is implicated in prolactin signaling.

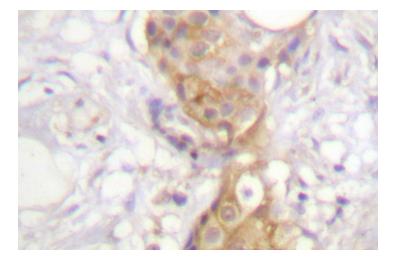

Synonyms:

PKC-delta, PKC delta, PKCD, Protein kinase C delta type
