

Product datasheet for AP06656PU-S

Aldolase (ALDOA) Rabbit Polyclonal Antibody

Product data:

OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

Product Type:	Primary Antibodies
Applications:	IF, WB
Recommended Dilution:	Western blot: 1/500-1/1000. Immunofluorescence: 1/50-1/200.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide, corresponding to the N-terminus of Human Aldolase A.
Specificity:	This antibody detects endogenous levels of Aldolase A protein. (region surrounding Thr9)
Formulation:	Phosphate buffered saline (PBS), pH~7.2 State: Aff - Purified State: Liquid purified Ig fraction (> 95% pure by SDS-PAGE). Preservative: 0.05% Sodium Azide
Concentration:	1.0 mg/ml
Purification:	Affinity Chromatography using epitope-specific immunogen.
Conjugation:	Unconjugated
Storage:	Store at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: One year from despatch.
Predicted Protein Size:	~39 kDa
Gene Name:	aldolase, fructose-bisphosphate A
Database Link:	<u>Entrez Gene 226 Human</u> <u>P04075</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

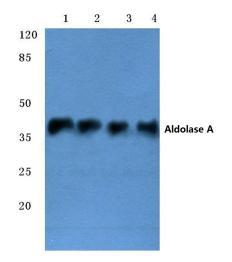

GRIGENE Aldolase (ALDOA) Rabbit Polyclonal Antibody – AP06656PU-S

Background:Fructose 1,6-bisphosphate aldolase catalyses the reversible condensation of glycerone-P and
glyceraldehyde 3-phosphate into fructose 1,6-bisphosphate. Fructose 1,6-bisphosphate
aldolase exists as three forms: the muscle-specific Aldolase A, the liver-specific Aldolase B,
and the brain-specific Aldolase C. Aldolase A, B and C arose from a common ancestral gene
from which Aldolase B first diverged. Aldolase A is one of the most highly-conserved enzymes
known, with only about 2% of the residues changing per 100 million years. Aldolase B is
regulated by the hormones insulin and glucagon, and has been implicated in hereditary
fructose intolerance disease. Aldolase C is a polypeptide that is exclusively expressed in
Purkinje cells. Aldolase C-positive Purkinje cells are organized in the cerebellum as stripes or
bands that run from anterior to posterior across the cerebellum and alternate with bands of
Aldolase Cnegative Purkinje cells.

Synonyms:

ALDA, NY-LU-1, Muscle-type aldolase
