

Product datasheet for AP08076PU-N

alpha 1 Catenin (CTNNA1) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies WB **Applications:** Recommended Dilution: Western Blot: 1/500~1/1000. **Reactivity:** Human, Mouse Host: Rabbit **Clonality:** Polyclonal The antiserum was produced against synthesized non-phosphopeptide derived from human Immunogen: Alpha-Catenin around the phosphorylation site of Serine 641 (D-D-Sp-D-F). Specificity: This antibody detects endogenous levels of total Alpha-Catenin protein. PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.02% Sodium Azide and 50% Glycerol. Formulation: State: Aff - Purified State: Liquid purified Ig fraction. **Concentration:** lot specific **Purification:** Immunoaffinity Chromatographyusing epitope-specific immunogen. **Conjugation:** Unconjugated Store the antibody (in aliquots) at -20°C. Storage: Avoid repeated freezing and thawing. Stability: Shelf life: One year from despatch. Gene Name: catenin alpha 1 Database Link: Entrez Gene 1495 Human P35221

	alpha 1 Catenin (CTNNA1) Rabbit Polyclonal Antibody – AP08076PU-N
Background:	The distinct peripheral cytosolic proteins, alpha, beta and gamma-catenin (102, 94 and 86 kDa) found in many tissues bind to the conserved cytoplasmic tail domain of the cell- adhesion cadherins. Catenins link E-cadherin to other integral membrane or cytoplasmic proteins and are modulated by Wnt-1 proto-oncogene. They are good candidates for mediating transduction of cell-cell contact positional signals to the cell interior. Absence of alpha-catenin is found in certain tumor cell lines and reduced levels in certain human carcinomas. Beta-catenin binds directly to the cytoplasmic tail of E-cadherin. It binds to the N- terminus of alpha-catenin and interacts with the protein product of the tumor suppressor gene APC. This interaction involves a 15-aa repeat in the APC. Beta-catenin cell levels seem to be controlled by APC. The central core region of beta-catenin is involved in mediation of cadherin-catenin complex interaction with EGFR.

Synonyms: Alpha E-catenin, Alpha Catenin
