

Product datasheet for **AP08252PU-N**

AIRE (C-term) Goat Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	ELISA, IHC, R
Recommended Dilution:	ELISA: 1/32000. Immunohistochemistry on Paraffin Sections: 2.5 µg/ml. RIA: 0.01 - 0.03 µg/ml.
Reactivity:	Human
Host:	Goat
Isotype:	IgG
Clonality:	Polyclonal
Immunogen:	Synthetic peptide corresponding to the C-Terminal of Human AIRE (NP_000374.1, NP_000649.1). Epitope: aa534-545
Specificity:	This antibody recognize two of the tree reported isoforms (NP_000374.1 and NP_000649.1) from the C-terminus of human AIRE.
Formulation:	Tris-buffered saline, pH 7.3, 0.5% BSA, 0.02% sodium azide State: Aff - Purified State: Liquid purified Ig fraction
Concentration:	lot specific
Purification:	Immunoaffinity Chromatography
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	autoimmune regulator
Database Link:	Entrez Gene 326 Human O43918

Background:

AIRE is a transcriptional regulator that is thought to be important in controlling tissue-specific expression of genes in the thymus. The precise function of the protein is not well defined. It contains zinc finger motifs and isoform 1 is localized to both the nucleus and cytoplasm. Three splice variant mRNAs products have been described. The longer AIRE1 mRNA appears to be more abundant and includes exons 1 through 14. Splice variant AIRE2 includes a portion of the non-coding region of exon 1, an alternatively spliced longer exon 8, plus exons 9 through 14. Variant AIRE3 includes the same exon 1-8-9 sequences as found in AIRE2 but utilizes additional alternative splicing in exon 10 that shifts the reading frame such that a stop codon in exon 12 is utilized. The resulting protein products of these splice variants differ significantly. Defects in this gene cause the autosomal-recessive systemic autoimmune disease termed autoimmune polyendocrinopathy-candidiasis-ectodermal dystrophy (APECED).

Synonyms:

Autoimmune regulator
