Product Type:	Primary Antibodies
Applications:	IHC, WB
Recommended Dilution:	ELISA: 1/1,000. Western blotting: 1/50-1/100. Immunohistochemistry: 1/50-1/100.
Reactivity:	Human
Host:	Rabbit
lsotype:	lg
Clonality:	Polyclonal
Immunogen:	This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the C-terminal region of human PRMT1.
Specificity:	This antibody is specific to PRMT1 (C-term).
Formulation:	PBS containing 0.09% (W/V) Sodium Azide as preservative. State: Purified State: Liquid purified Ig fraction.
Concentration:	lot specific
Purification:	Protein G Chromatography eluted with high and low pH buffers and neutralized immediately, followed by dialysis against PBS.
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	protein arginine methyltransferase 1
Database Link:	<u>Entrez Gene 3276 Human</u> <u>Q99873</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

### **PRMT1 (C-term) Rabbit Polyclonal Antibody – AP11002PU-N**

# Background:Arginine methylation is an irreversible post translational modification which has only recently<br/>been linked to protein activity. At least three types of PRMT enzymes have been identified in<br/>mammalian cells. These enzymes have been shown to have essential regulatory functions by<br/>methylation of key proteins in several fundamental areas. These protein include nuclear<br/>proteins, IL enhancer binding factor, nuclear factors, cell cycle proteins, signal transduction<br/>proteins, apoptosis proteins, and viral proteins. The mammalian PRMT family currently<br/>consists of 7 members that share two large domains of homology. Outside of these domains,<br/>epitopes were identified and antibodies against all 7 PRMT members have been developed.

### Synonyms: HMT2, HRMT1L2, IR1B4

### **Product images:**

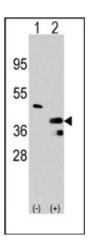

Figure 1. Western blot analysis of PRMT1 (arrow) using rabbit polyclonal PRMT1 Antibody (C-term). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the PRMT1 gene (Lane 2) (Origene Technologies).

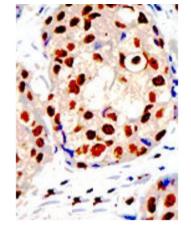

Figure 2. Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
