E3 SUMO protein ligase PIAS4 (PIAS4) (C-term) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC, WB

Recommended Dilution: ELISA: 1/1,000.

Western blot: 1/100-1/500.

Immunohistochemistry: 1/50-1/100.

Reactivity: Human
Host: Rabbit
Isotype: Ig

Clonality: Polyclonal

Immunogen: This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide

selected from the C-terminal region of human PIASy1.

Specificity: This antibody is specific to PIASy (C-term).

Formulation: PBS containing 0.09% (W/V) Sodium Azide as preservative.

State: Purified

State: Liquid purified Ig fraction.

Concentration: lot specific

Purification: Protein G Chromatography, eluted with high and low pH buffers and neutralized

immediately, followed by dialysis against PBS.

Conjugation: Unconjugated

Storage: Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.

Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.

Gene Name: protein inhibitor of activated STAT 4

Database Link: Entrez Gene 51588 Human

Q8N2W9

E3 SUMO protein ligase PIAS4 (PIAS4) (C-term) Rabbit Polyclonal Antibody - AP11254PU-N

Background: PIASy1 functions as an E3-type small ubiquitin-like modifier (SUMO) ligase, stabilizing the

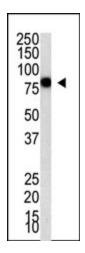

interaction between UBE2I and the substrate, and as a SUMO-tethering factor. This protein plays a crucial role in transcriptional coregulation of various cellular pathways, including the STAT pathway, the p53 pathway, the wnt pathway and the steroid hormone signaling

pathway. PIASy1 is involved in gene silencing, and promotes PARK7 sumoylation.

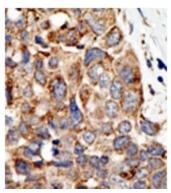

Synonyms: PIASG, PIAS-gamma, PIASy

Note: Predicted MW: 56504 Da

Product images:

Western blot analysis of PIASy1 polyclonal antibody to detect recombinant GST-PIASy1 in bacterial cell lysate.

Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
