

## Product datasheet for AP11375PU-N

## Chordin (CHRD) (C-term) Rabbit Polyclonal Antibody

### **Product data:**

Host:

Isotype:

Storage:

#### **Product Type: Primary Antibodies** IHC, WB **Applications:** Recommended Dilution: ELISA 1:1.000. Western blot 1:50 - 1:100. Immunohistochemistry 1:10 - 1:50. **Reactivity:** Human Rabbit lg **Clonality:** Polyclonal Immunogen: This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the C-terminal region of human CHRD. Specificity: This antibody detects CHRD at C-term. Formulation: PBS with 0.09% (W/V) sodium azide State: Aff - Purified State: Liquid Ig fraction **Concentration:** lot specific **Purification:** Protein A column, followed by peptide affinity purification. **Conjugation:** Unconjugated Store the antibody at 2 - 8 °C up to one month or (in aliquots) at -20 °C for longer. Avoid repeated freezing and thawing. Stability: Shelf life: one year from despatch. Gene Name: chordin Database Link: Entrez Gene 8646 Human Q9H2X0 **Background:** CHRD is a secreted protein that dorsalizes early vertebrate embryonic tissues by binding to

ventralizing TGF-beta-like bone morphogenetic proteins and sequestering them in latent

complexes. This protein may also have roles in organogenesis and during adulthood. Synonyms: CHRD

#### Molecular weight: 102032 Da

## **Product images:**

Western blot analysis of anti-CHRD (C-term) in HepG2 cell line lysates (35 ug/lane). CHRD (arrow) was detected using the purified Pab (1:60 dilution).

Formalin-fixed and paraffin-embedded human hepatocarcinoma tissue reacted with CHRD antibody (C-term), which was peroxidaseconjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
