Ribophorin II (RPN2) (N-term) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC, WB

Recommended Dilution: ELISA: 1/1,000.

Western Blot: 1/100-1/500.

Immunohistochemistry: 1/50-1/100.

Reactivity: Human
Host: Rabbit

Isotype: lg

Clonality: Polyclonal

Immunogen: This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide

selected from the N-terminal region of human RPN2.

Specificity: This antibody is specific to RPN2 (N-term).

Formulation: PBS with 0.09% (W/V) Sodium Azide as preservative.

State: Purified

State: Liquid purified Ig fraction.

Concentration: lot specific

Purification: Protein G Chromatography, eluted with high and low pH buffers and neutralized

immediately, followed by dialysis against PBS.

Conjugation: Unconjugated

Storage: Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.

Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.

Gene Name: ribophorin II

Database Link: Entrez Gene 6185 Human

P04844

Ribophorin II (RPN2) (N-term) Rabbit Polyclonal Antibody - AP12184PU-N

Background: RNP2 a type I integral membrane protein found only in the rough endoplasmic reticulum.

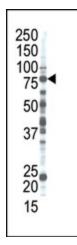

The encoded protein is part of an N-oligosaccharyl transferase complex that links high mannose oligosaccharides to asparagine residues found in the Asn-X-Ser/Thr consensus motif of nascent polypeptide chains. This protein is similar in sequence to the yeast

oligosaccharyl transferase subunit SWP1.

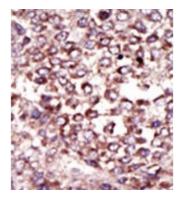

Synonyms: Ribophorin 2, Ribophorin II, RPN-II, RIBIIR

Note: Predicted Molecular weight: 69283 Da

Product images:

Western blot analysis of anti-RPN2 (N-term) Pab to detect RPN2.

Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
