### S adenosylhomocysteine hydrolase (AHCY) (N-term) Rabbit Polyclonal Antibody

#### **Product data:**

**Product Type:** Primary Antibodies

**Applications:** IHC, WB

Recommended Dilution: ELISA: 1/1,000.

Western Blot: 1/50-1/100

Immunohistochemistry: 1/10-1/50.

Reactivity: Human
Host: Rabbit

**Isotype:** lg

Clonality: Polyclonal

**Immunogen:** This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide

selected from the N-terminal region of human AHCY.

**Specificity:** This antibody detects S-Adenosylhomocysteine Hydrolase (AdoHcyase/AHCY) (N-term).

**Formulation:** PBS with 0.09% (W/V) Sodium Azide as preservative.

State: Purified

State: Liquid purified Ig fraction.

**Concentration:** lot specific

**Purification:** Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Conjugation: Unconjugated

**Storage:** Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.

Avoid repeated freezing and thawing.

**Stability:** Shelf life: one year from despatch.

Gene Name: adenosylhomocysteinase

Database Link: Entrez Gene 191 Human

P23526

**Background:** S-adenosylhomocysteine hydrolase (AHCY) catalyzes the reversible hydrolysis of S-

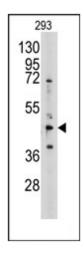

adenosylhomocysteine (AdoHcy) to adenosine (Ado) and L-homocysteine (Hcy). Thus, it regulates the intracellular S-adenosylhomocysteine (SAH) concentration thought to be important for transmethylation reactions. Deficiency in this protein is one of the different causes of hypermethioninemia. S-adenosylhomocysteine hydrolase belongs to the

adenosylhomocysteinase family.

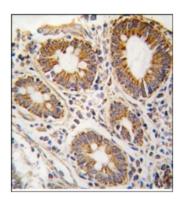

Synonyms: Adenosylhomocysteinase, SAHH

Note: Molecular weight: 47716 Da

# **Product images:**

Western blot analysis of anti-AHCY (N-term) Pab in 293 cell line lysates (35ug/lane).AHCY (arrow) was detected using the purified Pab.

Formalin-fixed and paraffin-embedded human hepatocarcinoma tissue reacted with AHCY antibody (N-term), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
