OriGene Technologies, Inc.

SIRT3 (C-term) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC, WB

Recommended Dilution: ELISA: 1/1,000.

Western blotting: 1/100 - 1/500.

Immunohistochemistry: 1/50 - 1/100.

Reactivity: Human, Mouse

Host: Rabbit

Isotype: lg

Clonality: Polyclonal

Immunogen: This polyclonal antibody was raised against a peptide selected from the C-terminal region of

human Sirt3.

Specificity: This antibody reacts to SIRT3.

Formulation: PBS with 0.09% (W/V) sodium azide

State: Purified

State: Liquid purified Ig

Concentration: lot specific

Purification: Protein G column, eluted with high and low pH buffers and neutralized immediately, followed

by dialysis against PBS

Conjugation: Unconjugated

Storage: Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.

Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.

Gene Name: sirtuin 3

Database Link: Entrez Gene 23410 Human

Q9NTG7

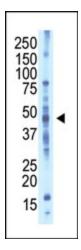

Background:

SIRT3 is a member of the sirtuin family of proteins, homologs to the yeast Sir2 protein. Members of the sirtuin family are characterized by a sirtuin core domain and grouped into four classes. The functions of human sirtuins have not yet been determined; however, yeast sirtuin proteins are known to regulate epigenetic gene silencing and suppress recombination of rDNA. Studies suggest that the human sirtuins may function as intracellular regulatory proteins with mono-ADP-ribosyltransferase activity. The SIRT3 is included in class I of the sirtuin family.

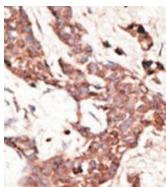

Synonyms:

SIRT-3, hSIRT3, SIR2-like protein 3, SIR2L3, sirtuin type 3, sirtuin 3, sirtuin-3

Product images:

The anti-Sirt3 C-term Pab is used in Western blot to detect Sirt3 in mouse liver tissue lysate.

Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by AEC staining.
