

Product datasheet for AP20560PU-N

Granzyme H (GZMH) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies Applications: IF, IHC, WB Recommended Dilution: Western blot: 1/500 - 1/1000. Immunohistochemistry on paraffin sections 1/50 - 1/200. Immunofluorescence: 1/50 - 1/200. **Reactivity:** Human, Mouse, Rat Host: Rabbit **Clonality:** Polyclonal Immunogen: Synthetic peptide, corresponding to amino acids 50-100 of Human Granzyme H. Specificity: This antibody detects endogenous levels of Granzyme H protein. (region surrounding Gly75) Formulation: Phosphate buffered saline (PBS), pH 7.2. State: Aff - Purified State: Liquid purified Ig fraction Preservative: 0.05% sodium azide **Concentration:** 1.0 mg/ml **Purification:** Affinity chromatography (> 95% (by SDS-PAGE) **Conjugation:** Unconjugated Storage: Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Stability: Shelf life: one year from despatch. Predicted Protein Size: ~ 21, 27 kDa Gene Name: granzyme H Database Link: Entrez Gene 2999 Human P20718

🖢 ORÏGENE Granzyme H (GZMH) Rabbit Polyclonal Antibody – AP20560PU-N

Background: The granzyme family of proteins belong to the larger peptidase S1 family. Granzyme A and granzyme B are serine proteases that facilitate apoptotic signaling in cytotoxic T lymphocytes (CTL) and natural killer (NK) cells. Within the granules of activated CTLs, granzyme A and granzyme B are processed and converted to their active forms by the lysosomal cysteine protease cathepsin C. Once cleaved, these active proteases target distinct substrates for proteolysis and, thereby, mediate apoptosis through two different pathways. Granzyme H, also designated cytotoxic T-lymphocyte proteinase, cathepsin G-like 2 (CTSGL2) or cytotoxic serine protease C (CSP-C), contains one peptidase S1 domain. Granzyme H localizes to cytoplasmic granules of cytolytic T-lymphocytes and is important for target cell lysis in cell-mediated immune responses

Synonyms:	CGL2, CTSGL2, CCP-X, Cytoto	oxic serine protease C, CSP-C

Protein Families:	Druggable Genome, Protease
