

Product datasheet for **AP21234BT-N**

Lipase 3 Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	ELISA, ID, IF, IP, R, WB
Recommended Dilution:	This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e.g., ELISA and Western blotting and Immunofluorescence or Histochemical techniques). <i>Working dilutions in non-precipitating antibody-binding techniques: at least 1/400.</i>
Reactivity:	Candida
Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Immunogen:	Cholesterol Esterase isolated and purified from <i>Candida cylindracea</i> . Freund's complete adjuvant is used in the first step of the immunization procedure.
Specificity:	The antibody recognizes Cholesterol Esterase from <i>Candida cylindracea</i> . The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: Immunoelectrophoresis, Cross-Immunoelectrophoresis, single Radial Immunodiffusion (Ouchterlony), block titration, ELISA, Immunoblotting and Enzyme Inhibition. Cross-reactivities against enzymes of other sources may occur but have not been determined.
Formulation:	PBS, pH 7.2 without preservatives and foreign proteins Label: Biotin State: Lyophilized Hyperimmune IgG fraction Molar ratio: Biotin/IgG ~6.5
Reconstitution Method:	Restore by adding 1.0 ml of sterile distilled water
Concentration:	lot specific
Purification:	Ammonium Sulphate Precipitation and Ion Exchange Chromatography
Conjugation:	Biotin

Storage:	Shelf life: one year from despatch. Store lyophilized at 2-8°C for 6 months or at -20°C long term. After reconstitution store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C long term. If a slight precipitation occurs upon storage, this should be removed by centrifugation. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Database Link:	P32947
Synonyms:	Cholesterol Esterase, LIP3
