Beta-Glucosidase Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: ELISA, ID, IF, IP, R, WB

Recommended Dilution: This product is intended for use in precipitating and non-precipitating antibody-binding

assays (such as e.g., ELISA and Western blotting and Immunofluorescence or Histochemical techniques), to prepare an insoluble immuno-affinity adsorbent, for labelling with a marker

of choice.

Recommended Working Dilutions:

Non-precipitating antibody-binding techniques: 1/1,000-1/70,000.

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Beta-Glucosidase isolated and purified from almonds.

Freund's complete adjuvant is used in the first step of the immunization procedure.

Specificity: This antibody is polyclonal immunologic reagents to Beta-Glucosidase from Almonds. The

reagents were evaluated for potency, purity and specificity using most or all of the following

techniques: Immunoelectrophoresis, Cross-Immunoelectrophoresis, Single Radial Immunodiffusion (Ouchterlony), block titration, ELISA, Immunoblotting and enzyme

inhibition.

Cross-reactivities against enzymes of other sources may occur but have not been

determined.

Formulation: PBS, pH 7.2 without preservatives and foreign proteins

State: Azide Free

State: Lyophilized purified Hyperimmune IgG fraction

Reconstitution Method: Restore by adding 1.0 ml of sterile distilled water

Concentration: lot specific

Purification: Ammonium Sulphate Precipitation and Ion Exchange Chromatography

Conjugation: Unconjugated

Beta-Glucosidase Rabbit Polyclonal Antibody - AP21263AF-N

Storage: Store lyophilized at 2-8°C for 6 months or at -20°C long term.

After reconstitution store the antibody undiluted at 2-8°C for one month

or (in aliquots) at -20°C long term. Avoid repeated freezing and thawing.

Stability: Shelf life: one year from despatch.
