

# Product datasheet for AP21310AF-N

## **Glycerol Dehydrogenase Rabbit Polyclonal Antibody**

### **Product data:**

#### **Product Type: Primary Antibodies Applications:** ELISA, ID, IF, IP, R, WB Recommended Dilution: This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e.g., ELISA and Western blotting and Immunofluorescence or Histochemical techniques), to prepare an insoluble immuno-affinity adsorbent, for labelling with a marker of choice. Working Dilutions: Non-precipitating antibody-binding techniques: 1/10,000-1/700,000. **Reactivity:** Enterobacter Host: Rabbit lgG Isotype: **Clonality:** Polyclonal Immunogen: Glycerol Dehydrogenase isolated and purified from Enterobacter aerogenes. Freund's complete adjuvant is used in the first step of the immunization procedure. The antibody recognizes Glycerol Dehydrogenase from Enterobacter aerogenes. Specificity: The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: Immunoelectrophoresis, Cross-Immunoelectrophoresis, Single Radial Immunodiffusion (Ouchterlony), block titration, ELISA, Immunoblotting and enzyme inhibition. Cross-reactivities against enzymes of other sources may occur but have not been determined. Formulation: PBS, pH 7.2 without preservatives and foreign proteins State: Azide Free State: Lyophilized hyperimmune IgG fraction **Reconstitution Method:** Restore by adding 1.0 ml of sterile distilled water **Concentration:** lot specific **Purification:** Ammonium Sulphate Precipitation and Ion Exchange Chromatography **Conjugation:** Unconjugated

	Glycerol Dehydrogenase Rabbit Polyclonal Antibody – AP21310AF-N
Storage:	Store the antibody lyophilized at 2-8°C and reconstituted at 2-8°C for one week or (in aliquots) at -20°C for longer. If a slight precipitation occurs upon storage, this should be removed by centrifugation.
Stability:	Shelf life: one year from despatch.
