

Product datasheet for **AP22962PU-N**

NCKAP1L Goat Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	IHC
Recommended Dilution:	Immunohistochemistry on Paraffin Sections: 3.75 µg/ml.
Reactivity:	Human, Bovine, Bat, Canine, Equine, Hamster, Monkey, Mouse, Rabbit, Rat
Host:	Goat
Clonality:	Polyclonal
Immunogen:	Synthetic peptide from human NCKAP1L
Specificity:	This antibody reacts to Membrane-associated Protein Hem-1 (NCKAP1L).
Formulation:	Tris saline buffer, pH 7.3 containing 0.5% BSA and 0.02% sodium azide State: Aff - Purified State: Liquid purified Ig fraction
Concentration:	lot specific
Purification:	Immunoaffinity Chromatography
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Gene Name:	NCK associated protein 1 like
Database Link:	Entrez Gene 105855 Mouse Entrez Gene 315348 Rat Entrez Gene 3071 Human P55160
Background:	NCKAP1L encodes a member of the HEM family of tissue-specific transmembrane proteins which are highly conserved from invertebrates through mammals. This gene is only expressed in hematopoietic cells. The encoded protein is a part of the Scar/WAVE complex which plays an important role in regulating cell shape in both metazoans and plants. Alternatively spliced transcript variants encoding different isoforms have been found.
Synonyms:	Hematopoietic protein 1, HEM-1
Protein Pathways:	Regulation of actin cytoskeleton
