

Product datasheet for **AP26367PU-N**

Ifng Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	ELISA, FN, IHC, WB
Recommended Dilution:	Immunohistochemistry on frozen sections: 1/10. Functional Assays (neutralization in bio-assays). Immunassays. Western blot: The typical starting working dilution is 1/10. Before use in biological assays, the product must be filter sterilized and depending on the concentration to be used dialyzed against culture medium to remove the sodium azide added.
Reactivity:	Rat
Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Specificity:	The antibody reacts with rat Interferon gamma (IFN-gamma) of both natural and recombinant origin. The antigen specificity was further assessed by ELISA and Western blotting. No cross-reactivities with other cytokines have been detected.
Formulation:	PBS State: Purified State: Liquid 0.2 µm filtered Ig fraction Stabilizer: 0.1% BSA Preservative: 0.02% Sodium Azide
Concentration:	lot specific
Purification:	Protein A Chromatography
Conjugation:	Unconjugated
Storage:	Store undiluted at 2-8°C. DO NOT FREEZE!
Stability:	Shelf life: one year from despatch.
Gene Name:	interferon gamma
