

Product datasheet for **AP31799FC-N**

Rabbit IgG (H+L chain) Chicken Polyclonal Antibody

Product data:

Product Type:	Secondary Antibodies
Product Name:	Rabbit IgG (H+L chain) Chicken Polyclonal Antibody
Applications:	ID, IF, IHC
Recommended Dilution:	Immunocytochemistry. Immunohistochemistry (1/250). Quality Control: Antibodies were tested for specificity using Double-Immunodiffusion assays in agarose and for non-specific binding using Cryostat sections of unfixed embryonic chick tissues.
Reactivity:	Rabbit
Host:	Chicken
Immunogen:	Purified, non-denatured Rabbit IgG (containing both heavy and light chains). Production. Eggs were collected from hyperimmunized hens and the IgY fraction purified from the yolks. Anti-Rabbit IgG's were affinity-purified over a column conjugated with purified Rabbit IgG (containing both heavy and light chains) and then conjugated with Fluorescein isothiocyanate.
Isotype:	Ig
Formulation:	PBS, pH 7.2 containing 0.02% Sodium Azide as preservative. Label: FITC State: Liquid purified Ig fraction. Label: Fluorescein Absorption emission: Ratio of absorbance at 495/280 = 1.2 Molar ratio: F/P = 5.2
Concentration:	lot specific
Purification:	Affinity Chromatography.
Conjugation:	FITC
Storage:	Store the antibody undiluted at 2-8°C in the dark.
