Western blot analysis of FAM40A Antibody in mouse brain, liver tissue and HeLa cell line lysates (35ug/lane). This demonstrates the FAM40A antibody detected the FAM40A protein (arrow).

Formalin fixed and paraffin embedded brain tissue reacted with FAM40A Antibody followed by peroxidase conjugation of the secondary antibody and DAB staining.

Flow cytometric analysis of HeLa cells using FAM40A Antibody (right histogram) compared to a negative control cell (left histogram). FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.
