| <b>D</b>   / <b>T</b> |  |  |
|-----------------------|--|--|
| Product Type:         | Primary Antibodies   |  |
| Applications:         | WB   |  |
| Recommended Dilution: | ELISA: 1/1000.<br>Western Blot: 1/100-1/500.   |  |
| Reactivity:           | Human  |  |
| Host:                 | Rabbit   |  |
| lsotype:              | Ig   |  |
| Clonality:            | Polyclonal   |  |
| Immunogen:            | KLH conjugated synthetic peptide between 281-313 amino acids from the C-terminal region of Human Olfactory receptor 10Z1 |  |
| Specificity:          | This antibody recognizes Human Olfactory receptor 10Z1 (C-term).   |  |
| Formulation:          | PBS containing 0.09% (W/V) Sodium Azide as preservative<br>State: Aff - Purified<br>State: Liquid purified lg fraction   |  |
| Concentration:        | lot specific   |  |
| Purification:         | Protein A column, followed by peptide affinity purification  |  |
| Conjugation:          | Unconjugated   |  |
| Storage:              | Store undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer.<br>Avoid repeated freezing and thawing.     |  |
| Stability:            | Shelf life: one year from despatch.  |  |
| Gene Name:            | olfactory receptor family 10 subfamily Z member 1  |  |
| Database Link:        | <u>Entrez Gene 128368 Human</u><br><u>Q8NGY1</u>   |  |

|                   | OR10Z1 (C-term) Rabbit Polyclonal Antibody – AP53015PU-N  |
|-------------------|---|
| Background:       | Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. |
| Synonyms:         | OR10Z1, Olfactory receptor OR1-15   |
| Note:             | Molecular Weight: 34609 Da  |
| Protein Families: | Transmembrane   |
| Protein Pathway   | s: Olfactory transduction   |

Western blot analysis of OR10Z1 Antibody (Cterm) in MDA-MB231 cell line lysates (35ug/lane). This demonstrates the OR10Z1 antibody detected the OR10Z1 protein (arrow).
