# Product datasheet for AP54055PU-N

## SSX4 (SSX4B) (Center) Rabbit Polyclonal Antibody

## **Product data:**

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	ELISA: 1/1000. Western Blot: 1/100 - 1/500.
Reactivity:	Human
Host:	Rabbit
lsotype:	lg
Clonality:	Polyclonal
Immunogen:	KLH conjugated synthetic peptide between 68-97 amino acids from the Central region of human SSX4
Specificity:	This antibody reacts to SSX4.
Formulation:	PBS State: Aff - Purified State: Liquid purified Ig fraction Preservative: 0.09% (W/V) sodium azide
Concentration:	lot specific
Purification:	Affinity chromatography on Protein A
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	21858 Da
Gene Name:	SSX family member 4B
Database Link:	<u>Entrez Gene 548313 Human</u> <u>O60224</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** SSX4 (SSX4B) (Center) Rabbit Polyclonal Antibody – AP54055PU-N

Background:The product of this gene belongs to the family of highly homologous synovial sarcoma X (SSX)<br/>breakpoint proteins. These proteins may function as transcriptional repressors. They are also<br/>capable of eliciting spontaneously humoral and cellular immune responses in cancer<br/>patients, and are potentially useful targets in cancer vaccine-based immunotherapy. SSX1,<br/>SSX2 and SSX4 genes have been involved in the t(X;18) translocation characteristically found<br/>in all synovial sarcomas. This translocation results in the fusion of the synovial sarcoma<br/>translocation gene on chromosome 18 to one of the SSX genes on chromosome X.<br/>Chromosome Xp11 contains a segmental duplication resulting in two identical copies of<br/>synovial sarcoma, X breakpoint 4, SSX4 and SSX4B, in tail-to-tail orientation. This gene, SSX4B,<br/>represents the more centromeric copy. Two transcript variants encoding distinct isoforms<br/>have been identified for this gene.

Synonyms: Synovial sarcoma X breakpoint 4, SSX4A, SSX4B, CT5.4

#### **Product images:**

SSX4 Antibody (Center) western blot analysis in CEM cell line lysates (35ug/lane).This demonstrates the SSX4 antibody detected the SSX4 protein (arrow).
