# Product datasheet for AP55849PU-S

## Eph receptor A7 (EPHA7) pTyr791 Rabbit Polyclonal Antibody

### **Product data:**

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	Western blot: 1:500~1:1000.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Peptide sequence around phosphorylation site of tyrosine 791 (A-V-Y(p)-T-T) derived from Human EPHA7 (KLH-conjugated)
Specificity:	The antibody detects endogenous levels of EPHA7only when phosphorylated at tyrosine 791.
Formulation:	Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol State: Aff - Purified State: Liquid Ig fraction
Concentration:	lot specific
Purification:	Affinity chromatography using epitope-specific peptide
Conjugation:	Unconjugated
Storage:	Upon receipt, store undiluted (in aliquots) at -20°C. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	112 kDa
Gene Name:	EPH receptor A7
Database Link:	<u>Entrez Gene 2045 Human</u> <u>Q15375</u>

#### S ORIGENE Eph receptor A7 (EPHA7) pTyr791 Rabbit Polyclonal Antibody – AP55849PU-S Eph receptor A7 (EPHA7) pTyr791 Rabbit Polyclonal Antibody – AP55849PU-S

Background:Receptor tyrosine kinase which binds promiscuously GPI-anchored ephrin-A family ligands<br/>residing on adjacent cells, leading to contact-dependent bidirectional signaling into<br/>neighboring cells. The signaling pathway downstream of the receptor is referred to as<br/>forward signaling while the signaling pathway downstream of the ephrin ligand is referred to<br/>as reverse signaling. Among GPI-anchored ephrin-A ligands, EFNA5 is a cognate/functional<br/>ligand for EPHA7 and their interaction regulates brain development modulating cell-cell<br/>adhesion and repulsion. Has a repellent activity on axons and is for instance involved in the<br/>guidance of corticothalamic axons and in the proper topographic mapping of retinal axons to<br/>the colliculus.

Synonyms: EHK3, HEK11, Ephrin type-A receptor 7
