

Product datasheet for **AR00102PU-N**

Influenza B (Strain B/Hong Kong 5/72) Protein

Product data:

Product Type:	Native Proteins
Description:	Influenza B Strain B/Hong Kong 5/72 protein, 1 ml
Protein Source:	MDCK
Concentration:	lot specific
Purity:	Clarified and concentrated cell culture supernatant
Buffer:	Presentation State: Purified State: Liquid purified protein Buffer System: EMEM without preservatives.
Bioactivity:	Specific: 36,000 HA Units/ml (Hemagglutination Endpoint Assay)
Preparation:	Liquid purified protein
Applications:	This preparation may be used as is in a variety of immunoassay formats or may be further purified to meet the needs of a particular assay format. May be used for both IgG and IgM detection in assays which include EIA with polystyrene and latex solid phases.
Protein Description:	Influenza B Antigen Strain B/Hong Kong 5/72
Note:	Caution: We are aware of no specific hazards associated with this product. The reagent has been inactivated and should contain no infectious material. However with influenza, the potential for reconstitution of inactivated particles is possible. Handle material as if infectious.
Storage:	Store the protein at -70°C. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
