

## Product datasheet for **CB617424**

### Frozen Tissue Blocks, Brain

#### Product data:

|   |                          |
|---|--------------------------|
| Product Type:                                     | Frozen Blocks            |
| Disease State:                                    | Other Disease            |
| Diagnosis Category:                               | Meningioma               |
| Tissue:   | Brain                    |
| Frozen Sample ID:                                 | FR00016255               |
| Case ID:  | CU0000005251             |
| Tissue of Origin:                                 | Brain                    |
| Site of Finding:                                  | Brain                    |
| Appearance:                                       | Tumor                    |
| Sample Diagnosis (from Pathology Verification):   | Meningioma, benign       |
| Normal:   | 0%                       |
| Lesional:   | 0%                       |
| Tumor:  | 95%                      |
| Tumor Hypo/Acellular Stroma:                      | 5%                       |
| Tumor Hypercellular Stroma:                       | 0%                       |
| Necrosis:   | 0%                       |
| Pathology Verification notes from H&E review:     | Psammoma bodies present. |
| CASE Diagnosis (from medical center path report): | Meningioma, benign       |
| Age:  | 69                       |
| Gender:   | Not specified            |
| Tumor Grade:                                      | WHO Grade I              |
