

## Product datasheet for **CD564388**

### Tissue Genomic DNA, Lymph node

#### Product data:

|   |  |
|---|--|
| Product Type:                                   | Genomic DNA                              |
| Disease State:                                  | Other Disease                            |
| Diagnosis Category:                             | Hyperplasia                              |
| Tissue:   | Lymph node                               |
| Frozen Sample ID:                               | FR0002862F                               |
| Case ID:  | CU0000009307                             |
| Prep:   | A  |
| Vial ID:  | DN0000139C                               |
| Tissue of Origin:                               | Lymph node                               |
| Site of Finding:                                | Lymph node                               |
| Appearance:                                     | Lesional                                 |
| Sample Diagnosis (from Pathology Verification): | Follicular hyperplasia of lymph node     |
| Normal:   | 0%                                       |
| Lesional:                                       | 100%                                     |
| Tumor:  | 0%                                       |
| Tumor Hypo/Acellular Stroma:                    | 0%                                       |
| Tumor Hypercellular Stroma:                     | 0%                                       |
| Necrosis:                                       | 0%                                       |
| Pathology Verification notes from H&E review:   | 70% follicles, 30% inter-follicular zone |
| Bioanalyzer Ratio (28S/18S):                    | 2.01                                     |

| <b>CASE Diagnosis (from medical center path report):</b> | Follicular hyperplasia of lymph node  |
| <b>Age:</b>  | 58  |
| <b>Gender:</b>   | Male  |
| <b>Diagnostic Test Results:</b>                          | Gram stain ~ Brown and Brenn stain,Negative; GMS ~ Grocott methenamine silver stain,Negative; Acid-fast bacteria ~ AFB ~ Ziehl-Neelsen acid fast,Negative; EBV latent membrane protein 1 ~ LMP1 ! by IHC,Negative; Kappa light chain ! by IHC,Negativ |
| <b>Storage:</b>  | Store the total DNA -80°C.  |
| <b>Stability:</b>  | These products are stable for one year from date of shipping when stored at -80°C without repeated freeze/thaws.  |
