

## Product datasheet for **CD565374**

### Tissue Genomic DNA, Lung

#### Product data:

|   |                                       |
|---|---------------------------------------|
| Product Type:                                   | Genomic DNA                           |
| Disease State:                                  | Cancer                                |
| Diagnosis Category:                             | Lung Cancer                           |
| Tissue:   | Lung                                  |
| Frozen Sample ID:                               | FR00007357                            |
| Case ID:  | CU0000001804                          |
| Prep:   | A                                     |
| Vial ID:  | DN000002F9                            |
| Tissue of Origin:                               | Lung                                  |
| Site of Finding:                                | Lung                                  |
| Appearance:                                     | Tumor                                 |
| Sample Diagnosis (from Pathology Verification): | Carcinoma of lung, large cell         |
| Normal:   | 0%                                    |
| Lesional:                                       | 0%                                    |
| Tumor:  | 60%                                   |
| Tumor Hypo/Acellular Stroma:                    | 0%                                    |
| Tumor Hypercellular Stroma:                     | 20%                                   |
| Necrosis:                                       | 20%                                   |
| Pathology Verification notes from H&E review:   | The tumor has focal basaloid features |
| Bioanalyzer Ratio (28S/18S):                    | 1.93                                  |

|--|--|
| <b>CASE Diagnosis (from medical center path report):</b> | Carcinoma of lung, large cell  |
| <b>Age:</b>  | 81   |
| <b>Gender:</b>   | Female   |
| <b>Tumor Grade:</b>                                      | AJCC G3: Poorly differentiated   |
| <b>Minimum Stage Grouping:</b>                           | IA   |
| <b>T (Extent of Primary Tumor):</b>                      | T1   |
| <b>N (Lymph node metastasis):</b>                        | N0   |
| <b>M (Distant metastasis):</b>                           | MX   |
| <b>Storage:</b>  | Store the total DNA -80°C.   |
| <b>Stability:</b>  | These products are stable for one year from date of shipping when stored at -80°C without repeated freeze/thaws. |
