

Product datasheet for **CF500025**

Hex (HHEX) Mouse Monoclonal Antibody [Clone ID: OTI4B7]

Product data:

Product Type:	Primary Antibodies
Clone Name:	OTI4B7
Applications:	WB
Recommended Dilution:	WB: 1:500 - 1:1000
Reactivity:	Human, Mouse, Rat
Host:	Mouse
Isotype:	IgG1
Clonality:	Monoclonal
Immunogen:	Recombinant fragment expressed in E.coli corresponding to amino acids 100-270 of human Hex
Formulation:	Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)
Reconstitution Method:	For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific)
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	29.8 kDa (experimental 44 kDa)
Gene Name:	Homo sapiens hematopoietically expressed homeobox (HHEX), mRNA.
Database Link:	NP_002720 Entrez Gene 15242 MouseEntrez Gene 79237 RatEntrez Gene 3087 Human Q03014
Background:	Hex is a member of the homeobox family of transcription factors, many of which are involved in developmental processes. Expression in specific hematopoietic lineages suggests that this protein may play a role in hematopoietic differentiation.

Synonyms: HEX; HMPH; HOX11L-PEN; PRH; PRHX

Protein Families: Druggable Genome, Transcription Factors

Protein Pathways: Maturity onset diabetes of the young

Product images:

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY HHex ([RC204815], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-HHex. Positive lysates [LY419139] (100ug) and [LC419139] (20ug) can be purchased separately from OriGene.

Western blot analysis of extracts (35ug) from 9 different cell lines by using anti-HHex monoclonal antibody at 1:500 dilution (HepG2: human; HeLa: human; SVT2: mouse; A549: human; COS7: monkey; Jurkat: human; MDCK: canine; PC12: rat; MCF7: human).

Hex antibody (4B7) at 1:1000 with Lysates from HEK-293T cells transfected with human Hex expression vector (Cat# [RC204815])
