# Product datasheet for CF501020

### LIPG Mouse Monoclonal Antibody [Clone ID: OTI4C3]

#### **Product data:**

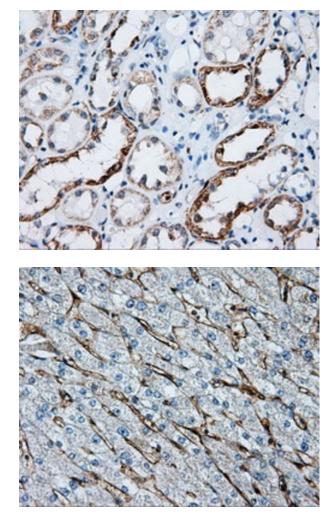

| Product Type:           | Primary Antibodies   |
|-------------------------|--|
| Clone Name:             | OTI4C3   |
| Applications:           | FC, IF, IHC, IP  |
| Recommended Dilution:   | IHC 1:50, IF 1:100, FLOW 1:100, IP 2ug/500ul   |
| Reactivity:             | Human  |
| Host:                   | Mouse  |
| lsotype:                | lgG2b  |
| Clonality:              | Monoclonal   |
| Immunogen:              | Full length human recombinant protein of human LIPG (NP_006024) produced in HEK293T cell.  |
| Formulation:            | Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)  |
| Reconstitution Method:  | For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific) |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G)   |
| Conjugation:            | Unconjugated   |
| Storage:                | Store at -20°C as received.  |
| Stability:              | Stable for 12 months from date of receipt.   |
| Predicted Protein Size: | 54.6 kDa   |
| Gene Name:              | lipase G, endothelial type   |
| Database Link:          | <u>NP_006024</u><br><u>Entrez Gene 9388 Human</u><br><u>Q9Y5X9</u>   |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

|                   | LIPG Mouse Monoclonal Antibody [Clone ID: OTI4C3] – CF501020  |
|-------------------|---|
| Background:       | The protein encoded by this gene has substantial phospholipase activity and may be involved<br>in lipoprotein metabolism and vascular biology. This protein is designated a member of the<br>TG lipase family by its sequence and characteristic lid region which provides substrate<br>specificity for enzymes of the TG lipase family. [provided by RefSeq] |
| Synonyms:         | EDL; EL; PRO719   |
| Protein Families: | Druggable Genome, Secreted Protein  |
| Protein Pathway   | s: Glycerolipid metabolism, Metabolic pathways  |

## **Product images:**

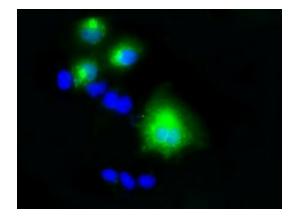

Immunohistochemical staining of paraffinembedded Human Kidney tissue within the normal limits using anti-LIPG mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA501020])

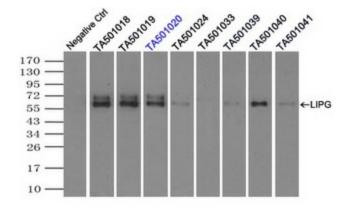

Immunohistochemical staining of paraffinembedded Human liver tissue within the normal limits using anti-LIPG mouse monoclonal antibody. (Heat-induced epitope retrieval by 10mM citric buffer, pH6.0, 100°C for 10min, [TA501020])

#### 

Anti-LIPG mouse monoclonal antibody ([TA501020]) immunofluorescent staining of COS7 cells transiently transfected by pCMV6-ENTRY LIPG ([RC209248]).

Immunoprecipitation (IP) of LIPG by using TrueMab monoclonal anti-LIPG antibodies (Negative control: IP without adding anti-LIPG antibody.). For each experiment, 500ul of DDK tagged LIPG overexpression lysates (at 1:5 dilution with HEK293T lysate), 2ug of anti-LIPG antibody and 20ul (0.1mg) of goat anti-mouse conjugated magnetic beads were mixed and incubated overnight. After extensive wash to remove any non-specific binding, the immunoprecipitated products were analyzed with rabbit anti-DDK polyclonal antibody.

HEK293T cells transfected with either [RC209248] overexpress plasmid (Red) or empty vector control plasmid (Blue) were immunostained by anti-LIPG antibody ([TA501020]), and then analyzed by flow cytometry.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
