| Clone Name:             | OTI3A8                                                                                                                                                                                                                                                                                                                               |
| Applications:           | FC, IF, WB                                                                                                                                                                                                                                                                                                                           |
| Recommended Dilution:   | WB 1:500~2000, IF 1:100, FLOW 1:100                                                                                                                                                                                                                                                                                                  |
| Reactivity:             | Human                                                                                                                                                                                                                                                                                                                                |
| Host:                   | Mouse                                                                                                                                                                                                                                                                                                                                |
| lsotype:                | lgG2a                                                                                                                                                                                                                                                                                                                                |
| Clonality:              | Monoclonal                                                                                                                                                                                                                                                                                                                           |
| Immunogen:              | Full length human recombinant protein of human PYCRL (NP_075566) produced in HEK293T<br>cell.                                                                                                                                                                                                                                        |
| Formulation:            | Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)                                                                                                                                                                                                                                                                    |
| Reconstitution Method:  | For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific) |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G)                                                                                                                                                                                                                         |
| Conjugation:            | Unconjugated                                                                                                                                                                                                                                                                                                                         |
| Storage:                | Store at -20°C as received.                                                                                                                                                                                                                                                                                                          |
| Stability:              | Stable for 12 months from date of receipt.                                                                                                                                                                                                                                                                                           |
| Predicted Protein Size: | 28.5 kDa                                                                                                                                                                                                                                                                                                                             |
| Gene Name:              | pyrroline-5-carboxylate reductase 3                                                                                                                                                                                                                                                                                                  |

#### **Product images:**

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY PYCRL ([RC229141], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-PYCRL. Positive lysates [LY411510] (100ug) and [LC411510] (20ug) can be purchased separately from OriGene.

Anti-PYCRL mouse monoclonal antibody ([TA502032]) immunofluorescent staining of COS7 cells transiently transfected by pCMV6-ENTRY PYCRL ([RC203382]).

HEK293T cells transfected with either [RC203382] overexpress plasmid (Red) or empty vector control plasmid (Blue) were immunostained by anti-PYCRL antibody ([TA502032]), and then analyzed by flow cytometry.
