# Product datasheet for CF503724

## katanin p80 (KATNB1) Mouse Monoclonal Antibody [Clone ID: OTI5A1]

## **Product data:**

| Product Type:           | Primary Antibodies   |
|-------------------------|--|
| Clone Name:             | OTI5A1   |
| Applications:           | FC, IF, WB   |
| Recommended Dilution:   | WB 1:2000, IF 1:100, FLOW 1:100  |
| Reactivity:             | Human, Mouse, Rat  |
| Host:                   | Mouse  |
| lsotype:                | lgG2a  |
| Clonality:              | Monoclonal   |
| Immunogen:              | Full length huamn recombinant protein of human KATNB1(NP_005877) produced in HEK293T cell.   |
| Formulation:            | Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)  |
| Reconstitution Method:  | For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific) |
| Purification:           | Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography<br>(protein A/G)   |
| Conjugation:            | Unconjugated   |
| Storage:                | Store at -20°C as received.  |
| Stability:              | Stable for 12 months from date of receipt.   |
| Predicted Protein Size: | 72.2 kDa   |
| Gene Name:              | katanin regulatory subunit B1  |
| Database Link:          | <u>NP_005877</u><br><u>Entrez Gene 10300 Human</u><br><u>Q9BVA0</u>  |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

### **GRIGENE** katanin p80 (KATNB1) Mouse Monoclonal Antibody [Clone ID: OTI5A1] – CF503724

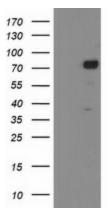

Background:Microtubules, polymers of alp<br/>dividing cell and help to organ<br/>heterodimer that consists of a<br/>protein (p80 subunit B 1). The<br/>the p80 subunit targets the error

Microtubules, polymers of alpha and beta tubulin subunits, form the mitotic spindle of a dividing cell and help to organize membranous organelles during interphase. Katanin is a heterodimer that consists of a 60 kDa ATPase (p60 subunit A 1) and an 80 kDa accessory protein (p80 subunit B 1). The p60 subunit acts to sever and disassemble microtubules, while the p80 subunit targets the enzyme to the centrosome. Katanin is a member of the AAA family of ATPases. [provided by RefSeq]

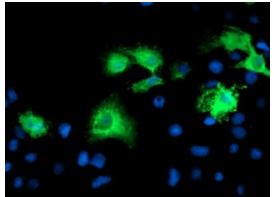

#### Synonyms:

KAT; LIS6

### **Product images:**

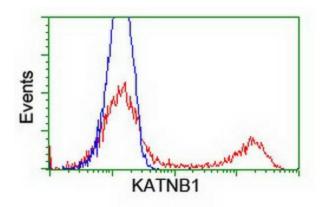

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY KATNB1 ([RC201852], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-KATNB1. Positive lysates [LY417004] (100ug) and [LC417004] (20ug) can be purchased separately from OriGene.

Anti-KATNB1 mouse monoclonal antibody ([TA503724]) immunofluorescent staining of COS7 cells transiently transfected by pCMV6-ENTRY KATNB1 ([RC201852]).

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

HEK293T cells transfected with either [RC201852] overexpress plasmid (Red) or empty vector control plasmid (Blue) were immunostained by anti-KATNB1 antibody ([TA503724]), and then analyzed by flow cytometry.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
