# Product datasheet for CF804270

## Calprotectin (S100A9) Mouse Monoclonal Antibody [Clone ID: OTI3C12]

### **Product data:**

Product Type:	Primary Antibodies
Clone Name:	OTI3C12
Applications:	IHC
Recommended Dilution:	IHC 1:150
Reactivity:	Human
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Immunogen:	Full length human recombinant protein of human S100A9 (NP_002956) produced in SF9 cell.
Formulation:	Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)
Reconstitution Method:	For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific)
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	13.1 kDa
Gene Name:	S100 calcium binding protein A9
Database Link:	<u>NP_002956</u> <u>Entrez Gene 6280 Human</u> <u>P06702</u>

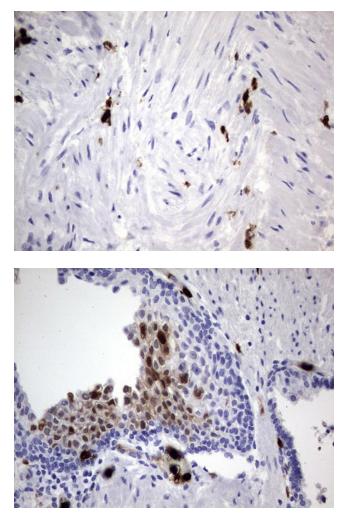

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

### **GRIGENE** Calprotectin (S100A9) Mouse Monoclonal Antibody [Clone ID: OTI3C12] – CF804270

# Background:The protein encoded by this gene is a member of the S100 family of proteins containing 2 EF-<br/>hand calcium-binding motifs. S100 proteins are localized in the cytoplasm and/or nucleus of a<br/>wide range of cells, and involved in the regulation of a number of cellular processes such as<br/>cell cycle progression and differentiation. S100 genes include at least 13 members which are<br/>located as a cluster on chromosome 1q21. This protein may function in the inhibition of<br/>casein kinase and altered expression of this protein is associated with the disease cystic<br/>fibrosis. [provided by RefSeq, Jul 2008]

Synonyms: 60B8AG; CAGB; CFAG; CGLB; L1AG; LIAG; MAC387; MIF; MRP14; NIF; P14
