Product datasheet for CF808002

PD1 (PDCD1) Mouse Monoclonal Antibody [Clone ID: OTI18F2]

Product data:

Product Type:	Primary Antibodies
Clone Name:	OTI18F2
Applications:	FC, IF
Recommended Dilution:	IF 1:100~900, FLOW 1:50
Reactivity:	Human
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Immunogen:	Full length human recombinant protein of human PDCD1 (NP_005009) produced in HEK293T cell.
Formulation:	Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)
Reconstitution Method:	For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific)
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	29.2 kDa
Gene Name:	programmed cell death 1
Database Link:	<u>NP_005009</u> <u>Entrez Gene 5133 Human</u> <u>Q15116</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

	PD1 (PDCD1) Mouse Monoclonal Antibody [Clone ID: OTI18F2] – CF808002
Background:	This gene encodes a cell surface membrane protein of the immunoglobulin superfamily. This protein is expressed in pro-B-cells and is thought to play a role in their differentiation. In mice, expression of this gene is induced in the thymus when anti-CD3 antibodies are injected and large numbers of thymocytes undergo apoptosis. Mice deficient for this gene bred on a BALB/c background developed dilated cardiomyopathy and died from congestive heart failure. These studies suggest that this gene product may also be important in T cell function and contribute to the prevention of autoimmune diseases. [provided by RefSeq, Jul 2008]
Synonyms:	CD279; hPD-1; hPD-l; hSLE1; PD-1; PD1; SLEB2
Protein Families	: Druggable Genome, Transmembrane
Protein Pathwa	ys: Cell adhesion molecules (CAMs), T cell receptor signaling pathway
